

## STUDENT PRICE INDEX (SPI) UPDATE

The November 2023 Central Washington University Student Price Index shows a 6.8 percent increase in the cost of living compared to November 2022, with the most significant increases being in coffee, school supplies, and groceries. This month was the third in a row that coffee has been the largest annual contributor. The SPI estimate this month is higher than the estimated price increases for the Pacific Northwest and the CPI (the average American), which were 3.5, and 3.1 respectively.

### THE SPI PROJECT

This project, led jointly by the Economics Association and the Department of Economics at CWU, develops a price index of the cost of college living in Ellensburg, Washington. Based on the campus-wide survey, each month the members of the Economic Association collect prices of items typically consumed by CWU students from various stores in Ellensburg to calculate the SPI index and inflation rates. This index's strength lies in identifying the change in prices students in Ellensburg face.
